**ONO Selected as an “A List Company” for Climate Change in CDP 2020
for the Third Consecutive Year**

Ono Pharmaceutical Co., Ltd. (Osaka, Japan; President, Representative Director: Gyo Sagara, “ONO”) announced that ONO has been selected by a global environmental non-profit CDP as a prestigious “A List company” for climate change in CDP2020 for the third consecutive year, based on its measures against climate change.

Based on a medium- and long-term environmental vision, ECO VISION 2050 (Environment Challenging Ono Vision 2050), ONO has set a "Realization of a decarbonized society," as one of the important fields and has been committed to reducing greenhouse gas discharged from our business activities.

ONO continues to contribute to society by discovering and developing innovative pharmaceutical products, and work toward the realization of a sustainable society in cooperation with our business partners.

About CDP

CDP is a global non-profit that drives companies and governments to reduce their greenhouse gas emissions, safeguard water resources and protect forests. Voted number one climate research provider by investors and working with institutional investors with assets of US\$106 trillion, we leverage investor and buyer power to motivate companies to disclose and manage their environmental impacts. Over 9,600 companies with over 50% of global market capitalization disclosed environmental data through CDP in 2020. This is in addition to the hundreds of cities, states and regions who have disclosed, making CDP’s platform one of the richest sources of information globally on how companies and governments are driving environmental change. CDP is a founding member of the We Mean Business Coalition. Visit <https://cdp.net/en> or follow us @CDP to find out more.

About CDP’s scoring

CDP’s annual environmental disclosure and scoring process is widely recognized as the gold standard of corporate environmental transparency. In 2020, a record number of more than 9,600 companies responded.

A detailed and independent methodology is used by CDP to assess these companies, allocating a score of A to D-based on the comprehensiveness of disclosure, awareness and management of environmental risks and demonstration of best practices associated with environmental leadership, such as setting ambitious and meaningful targets. Those that don't disclose or provide insufficient information are marked with an F.
